

## COVID-19 SAFETY/CHURCH RESUMPTION PREPARATION UPDATE

The Health Awareness Ministry of Salem Gospel Mission Int'l Bronx Assembly in collaboration with the Pastoral Ministry have come up with the following safety measures within the church premises against the coronavirus pandemic popularly called COVID-19.

1. The church has engaged the services of disinfectant personnel with the assistance of Sanctuary Care workers to thoroughly disinfect and sanitize the whole church from the main Sanctuary to the basement, toilets, kitchen, railings, utility/storage rooms and all offices. This will be followed by weekly cleaning by the Sanctuary Care workers and proper disinfection exercise by professional personnel will continue every 3 months.
2. Body temperature will be checked at the entrance of the church (by the HEALTH TEAM) and individuals with temperature of 99-degree Fahrenheit will not be allowed to enter or stay within the church premises.
3. Hand sanitizers/wipes will be available to individuals at all entrances of the church.
4. Ushers will allow 3 persons or family per ROW within the Sanctuary during service and every other ROW will be left empty. Let us practice social distancing.

5. All microphones should be wiped with Clorox- based wipes at the beginning and end of the service by the multimedia.

6. Hand sanitizer should be used before and after handling microphone/musical instruments/computers and any electronic equipment.

7. Ushers are advised to wash their hands properly with soap and water before and after counting money.

8. Members are encouraged to cover their nose and mouth when coughing or sneezing with tissue or flexed elbow. Use of hand sanitizer or hand washing should be done promptly.

9. The use of hand gloves to handle any equipment that is not physically soiled, opening or closing of doors will not be permitted within the church premises.

10. Close contact of person- to- person should be avoided. Social distancing does not mean social disengagement, let us continue to relate together as one family.

Please, let us all comply with these preventive measures to protect each other and help prevent the spread of viruses and other infections.

**HEALTH IS WEALTH, PREVENTION IS BETTER THAN CURE AND CHEAPER.**
